

## Cutting oil

### Cutting oil 5L

#### DESCRIPTION

An extreme-pressure, neat cutting oil, based on solvent-refined mineral oil with active sulphur, chlorine and fat. Appearance is clear and dark brown.

#### APPLICATION

Specially formulated for use with thread-cutting machines including pipe threading and tapping.

Ideally suited for use with the KINGFISHER range of pipe threading machines.

#### PRECAUTIONS

Not suitable for use on non-ferrous metals

Do not dilute!

**KINGFISHER'S COMMENTS:** Extends the life of your dies  
Ensures excellent surface finish and clean threads  
Blended to a low viscosity  
Top class cooling action  
Heavily loaded with extreme-pressure additives  
Good penetration and lubrication of cutting area
